## **EDUCATIONAL PHILOSOPHY**

### **Midnimo is committing to the following:**

- Providing a safe, caring and disciplined learning environment.
- Accepting no excuses for any child's failure to learn.
- Expecting and teaching all students to exhibit exemplary behavior.
- Emphasizing academic basics, especially in primary grades.
- Striving for high student achievement based on rigorous, meaningful standards measured frequently (daily).
- Utilizing evidence-based curricula and instructional techniques.
- Employing a mastery model of learning in all academic areas to promote skill development.
- Treating parents as customers.
- Freeing teachers from inefficiencies and equipping/coaching them to teach all students to high levels of academic success.
- Utilizing the latest advances in technology.
- Abide by the premise that no child is someone else's child.

The educational philosophy of the program states that every child can learn if taught appropriately. In other words, children who fail have been failed by the instruction to which they have been submitted. Equipped with a proven curriculum, school staff must follow successful instructional practices, evaluate each child each day, and as needed, alter ineffective teaching practices to meet the needs of every child. The school will emphasize basic skill development and mastery at every stage so as to make it most probable that skills will be applicable and generalizable beyond the immediate instructional setting.
